TrialTrace Evidence Report Viewer

Synthetic data only. This read-only viewer displays a saved report as supplied. It does not re-run checks, verify source files or make clinical judgements.

Loaded long-report-name-xx.json.

Run `7c3eea8aba8effb102eccdcd57cfa58fe28d33c4e95def1d7d499312aa580904`

Data	SYNTHETIC (clinical validation: false)
Producer	DEMO_ENGINE, version 0.1.0
Review state	PENDING_TEAM_SOURCE_REVIEW

1	Findings in report
1	PASS
0	POTENTIAL_DEVIATION
0	DATA_QUERY
0	NOT_EVALUABLE

Findings

1 shown / 1 findings in report

PASS `5025ad1ec17adaee0fd7110eeb1c321072f8083e1cbcfcc0fd16f24c804140e0`

SYNTH-RIVER-41 · OL_D8

Selected finding

PASS This supported check passed. It does not mean the patient or trial is fully compliant or safe.

Finding ID	`5025ad1ec17adaee0fd7110eeb1c321072f8083e1cbcfcc0fd16f24c804140e0`
Record ordinal	1
Participant	`SYNTH-RIVER-41`
Site	`SYNTH-SITE-8`
Visit	`SYNTH-CALL-41`
Visit code	`OL_D8`
Supplied reason	WITHIN_INCLUSIVE_WINDOW

Recorded calculation

Target date	`2032-01-03`
Allowed window	`2032-01-03 to 2032-01-06`
Observed date	`2032-01-06`
Days outside window	`0`

These values are shown as recorded in the report; the viewer does not recalculate them.

Limitations

- DRAFT ENGINEERING ONLY: source interpretation is unreviewed and pending independent human source review and integrator acceptance.
- Synthetic inputs only. No clinical validation or clinical/regulatory determination. A potential deviation requires human review.
- PASS means only this supported timing check passed under the stated draft rule; missing records never imply missed activities.
- File hashes identify supplied bytes and internal references; they do not authenticate source data or human review.
- Table cells give seven days after OL-D1 and +3 days. Zero early allowance and inclusive date boundaries are the candidate software interpretation requiring team review.
- OL-D1 and participant-decision visit may occur separately; never use the decision/consent/booking date instead of actual mapped vaccination.
- This checks timing of a documented safety phone call, not completion or adequacy of its safety assessments.
- No inference of eligibility, historical amendment applicability, missed events, clinical importance or exceptions.
